Alumni's Feedback on Curriculum

In order to make our curriculum relevant to current dental needs, we need your valuable feedback. Please rate the following accordingly.

S. No	Particulars	Excellent (5)	Very Good (4)	Good (3)	Average (2)	Poor (1)
1.	Curriculum imparts clinical attributes that will help become an good clinician		✓			
2.	Curriculum helps providing insights to solve wide range of problems in clinical dental set up		✓			
3.	Curriculum was comprehensive in nature and stimulated innovative thinking while working on basic applications		✓			
4.	Curriculum helped you to gain independent and life-long learning skills.		✓			
5.	The curriculum and syllabus content were appropriate for my placement / higher education		✓			
6.	The curriculum accommodates courses with lectures and experiential learning (hands-on)		✓			

Suggestions for further Improvement.

By The problem I faced during my session was COVID-19. that has huge impact on my internship. (Clinical practice) would suggest to be more prepared for any pandemic situation or lockdown.

NAAC Accredited 'A' & Certified ISO 9001 : 2015 & ISO 14001 : 2015

Student Feedback - Action Report AY (2020-2021)

The feedback is collected from all stakeholders (students, faculty, employers, alumni) by all departments independently. The respective Academic committee reviewed the feedback and has prepared a report and submitted for perusal to incorporate the possible suggestions to revise the curriculum.

- The curriculum must accommodate courses on How to use CBCT
- Post graduates' students get exposed to even oral oncology cases and their treatment
- Orientation of students to PSYCHOLOGICAL BEHAVIOUR MANGAMENT of child patients in order to handle children more efficiently and easily at clinics
- Undergraduate also to be trained for doing microscopic endodontic procedures using endodontic microscope
- Theory and practical classes of General Anatomy for Post graduate students as a part of Basic sciences

Action taken:

- With installation of new CBCT machine this year, final year students and interns are trained on how to use the CBCT machine.
- Oral surgery post graduate students are given peripheral postings in oncology hospitals for span of 2 to 3 months.
- Root canal treatments with use of endodontic microscope training is given for interns and post graduates
- Basic sciences theory classes are conducted for first year post graduate students every year.
